The Siegel Institute is pleased to announce the completion of another inspiring and insightful Phenomenal Women’s Conference! On March 22, 2013, attendees had the opportunity to sit in on workshops facilitated by some of the most successful and accomplished women in the state of Georgia! The 2013 PWC presented an inspiring roster of prestigious speakers leading break-out sessions and keynote addresses specifically developed and designed for women interested in enhancing their leadership potential. The highlight of this year’s conference was the presentation of the Phenomenal Woman Award, an award that recognizes outstanding leadership and accomplishments in the recipient’s life, career, and community. This year’s recipient was Dr. Taunya Lowe, CEO of Resurgent Group in Metro Atlanta. Dr. Lowe was recently recognized by People Magazine as one of the “Leading Ladies” in Atlanta business. Her company focuses on training human service providers on best practices in the field of mental health and addiction to equip organizations with the tools needed to offer quality competitive services.

Since 2001, the Siegel Institute for Leadership, Ethics and Character has been celebrating the accomplishment of women through annual conferences. Over the years, panel discussions and workshops have covered a wide variety of topics such as the environment, economy, social abuses and inequality, healthcare, and the non-profit sector. If you missed it this year, make sure you join us for the PWC conference in 2014 as each conference has proven to be even more inspiring and life changing than the last!
