Silent Auction
Located Adjacent to Room 400

We have many items of interest thanks to our donors and to the nursing students of Dr. Vanice Roberts. Her class adopted the silent auction as a community project. As a result of their efforts we have over 135 items to be auctioned. We appreciate so very much their help and contribution to the best auction ever.

Our special thanks to the members of our Women’s Programming Steering Committee. They meet regularly and plan the conference each year.
